

UNITED STATES PATENT APPLICATION  
INVENTION: Storage Apparatus for Catamenial Related Products  
INVENTOR: L. Marie Krey

CLAIMS

I claim:

1. An apparatus for storing and transporting catamenial related items comprising:

5 a container base including a bottom, a back wall having a first end and a second end, a generally circular side wall having a length and further including a first side wall end adjacent to the back wall first end and a second side wall end adjacent to the back wall second end, the length and back wall defining a space, the space being disposed over the bottom;

10 the space further comprising a first cross member and a second cross member, the first and second cross members further defining the space into a first compartment, a second compartment, and a third compartment; and,

a cover affixed to the back wall, the cover disposed to reversibly cover the space of the container.

15

2. The apparatus of Claim 1 further comprised of a rigid material.

3. The apparatus of Claim 1 further including a latch for releasably securing the cover onto the container.

UNITED STATES PATENT APPLICATION  
INVENTION: Storage Apparatus for Catamenial Related Products  
INVENTOR: L. Marie Krey

4. The apparatus of Claim 1 further including a prepackaged wipe disposed in any one of the first compartment, the second compartment, or the third compartment.

5 5. The apparatus of Claim 1 wherein the lid further includes an exterior surface on which ornamentation can be applied.

6. An apparatus for storing and transporting catamenial related items comprising:

10 a container including a bottom, a back wall having a first end and a second end, a generally circular side wall having a length and further including a first side wall end adjacent to the back wall first end and a second side wall end adjacent to the back wall second end, the length defining a space;

the space further comprising a first cross member and a second cross member, the first and second cross members further defining the space into a first compartment, a second compartment, and a third compartment; and

a cover sized to reversibly cover the space of the container.

7. The apparatus of Claim 6 further comprised of a rigid material.

20

UNITED STATES PATENT APPLICATION  
INVENTION: Storage Apparatus for Catamenial Related Products  
INVENTOR: L. Marie Krey

8. The apparatus of Claim 6 further including a latch for releasably securing the cover onto the container.

9. The apparatus of Claim 6 further including a prepackaged wipe disposed in any one of the first compartment, the second compartment, or the third compartment.

10. The apparatus of Claim 6 wherein the lid further includes an exterior surface on which ornamentation can be applied.

10

11. An apparatus for storing and transporting catamenial related items comprising:

a container including a bottom, a back wall, a first side wall, and a second side wall, the container having an interior defining a space;

15 the space further comprising a first cross member and a second cross member, the first and second cross members further defining the space into a first compartment, a second compartment, and a third compartment; and

a cover affixed to the back wall, the cover disposed to reversibly cover the space of the container.

20 12. The apparatus of Claim 11 further comprised of a rigid material.

UNITED STATES PATENT APPLICATION  
INVENTION: Storage Apparatus for Catamenial Related Products  
INVENTOR: L. Marie Krey

13. The apparatus of Claim 11 further including a latch for releasably  
securing the cover onto the container.

14. The apparatus of Claim 11 further including a prepackaged wipe  
5 disposed in any one of the first compartment, the second compartment, or the  
third compartment.

15. The apparatus of Claim 11 wherein the lid further includes an  
exterior surface on which ornamentation can be applied.

10

16. An apparatus for storing and transporting catamenial related items  
comprising:

a container including a bottom, a back wall, a first side wall, and a second  
side wall, the container having an interior defining a space;

15 the space further comprising a first cross member and a second cross  
member, the first and second cross members further defining the space into a first  
compartment, a second compartment, and a third compartment; and

a cover sized to reversibly cover the space of the container.

20 17. The apparatus of Claim 16 further comprised of a rigid material.

UNITED STATES PATENT APPLICATION

INVENTION: Storage Apparatus for Catamenial Related Products

INVENTOR: L. Marie Krey

18. The apparatus of Claim 16 further including a prepackaged wipe disposed in any one of the first compartment, the second compartment, or the third compartment.

5 19. The apparatus of Claim 16 wherein the lid further includes an exterior surface on which ornamentation can be applied.

20. A catamenial products storage apparatus comprising a container base further divider into at least three compartments and a lid disposed to reversibly seal the container base.
